

MEETING MINUTES

Subject : meeting GRoNe WP6– 30.05.2018		HENALLUX Virton	TD
Project	GRoNe		
Date :	30/05/2018		
Participant list			
Id.	Entity	Meeting objectives	
Jérémy FIX Hervé FREZZA-BUET Daphné HANDEREK Anne-Claude ROMAIN Henry-Michel CAUCHIE Henrihc OLLMANN Fabrice AZEBAZE KITIO Christian CAPELLE Thomas DELAITE	CentraleSupElec CentraleSupElec I-Mage Consult ULiège LIST IZFP IZFP Henallux Henallux	WP6 actualization by partners : <ul style="list-style-type: none"> - Reminder of WP6 specifications - Actual realizations - 2018-2019 organization 	
Items			
Items linked	<ul style="list-style-type: none"> - PowerPoint of the presentation (in French) - Participant sheet 		
1) Specifications	See the PowerPoint. Just a reminder of the exact specifications of the WP6 for Interreg.		
2) Actual realizations	<p>The WP6 workshop in University of Luxembourg about ROS was a success and partners want to do it again.</p> <ul style="list-style-type: none"> ➔ CentraleSupElec can do it too (plan B) ➔ CentraleSupElec also has a big formation about machine learning that can be simplified to be held in fewer days ➔ Important to vary the side of the GR for the intern formations <p>Henallux made two projects about UAVs with students : Lidar and thermography.</p> <p style="color: red;">⇒ Partners who work with students must send a resume of these projects for Interreg reports.</p> <p>Legislations need to be actualized :</p> <ul style="list-style-type: none"> - DE : IZFP - FR : Alérion? (care, new laws in France in July 2018) - LUX : no exact legislation in Luxembourg - BE : Henallux <p>⇒ Care that the EU is working on a global law</p> <p>⇒ Partners want to put the 4 countries around the table (WP5 perfect for that but no leader yet)</p> <p>Piloting : Noémie Molitor (ULiège) goes for the Belgium 1B license.</p>		
3) Organization 2018-2019	<p>For universities and schools, UAVs are a tool to apply theory</p> <p>➔ CentraleSupElec is going to a new thematic teaching : UAVs can be in there</p> <p>I-Mage Consult always needs data to work on and a formation about UAVs technical specifications.</p> <p><u>Partners are clear : there is no need to put a leader in each subgroup for WP6</u></p>		

	<p>I-Mage Consult can do a professional formation about image treatment in 3 steps :</p> <ul style="list-style-type: none"> a) SIG b) Image treatment c) Images assembly (often companies don't do that in intern) <p>Henallux is going more on initial formation :</p> <ul style="list-style-type: none"> a) What's a drone (for all public) b) Modelization c) Energy <p>CentraleSupElec is already up on formations they give (to students and professionals).</p> <p><u>We need in each formation to always speak about the 4 countries (especially for the legislation)</u></p> <p>Language for the formations? Project in French/German but many partners prefer in English</p> <p>⇒ Partners in WP6 need to ask their contact point which language they must use</p> <p>Many formations about UAVs are new (edX, TEDx, ...)</p> <p>⇒ We need to remake the WP6 state of the art</p>
<p>Others</p>	<p>Some partners ask for a new global Who's who with all the new persons in the project (many people left or went in).</p> <p>⇒ Partners must send a Who's who of their team to Henallux</p> <p>There is an exchange platform to work together already up by CentraleSupElec. <i>For the access you will need an account (by help Gitlab) and an invitation (by CentraleSupElec).</i> Address here : https://gitlab.centralesupelec.fr</p> <p>The official website need to have more content! It is important for our visibility and for Interreg. This site in a WordPress so each partner can make an inscription. After that the right can be given to modify and add content.</p>

Next meeting: see on Weblog <http://europaxion.typepad.fr/grone>

Partners send their contribution (table of contents) of the formations that they want to do for the beginning of September.

Next WP6 Meeting will be held 2-3 weeks after this limit so partners have the time to check these contributions.
